# TYCHON

## TYCHON Products Overview

The TYCHON product suite offers advanced endpoint analytics and remediation. Our products deliver the 'gold source' for enterprise endpoint data.

TYCHON solutions, designed around the real-world experience of offensive and defensive cyber experts, provide complete endpoint visibility, continuous monitoring, dynamic dashboards, query and response, and more at unparalleled speed and scale.

#### Products

#### **TYCHON Enterprise**

Eliminate blind spots, expose risks, and protect your network with real-time monitoring, historical data tracking, and endpoint query features.

#### **TYCHON Agentless**

Take advantage of flexible, continuous monitoring with no new infrastructure, designed to interface directly with existing investments.

#### **TYCHON Quantum Readiness**

Discover, inventory, prioritize, and continuously monitor cryptographic systems to meet government mandated reporting requirements.

#### TYCHON Tactical

For DoD deployed forces, operate in Delayed/Disconnected, Intermittentlyconnected, Low-Bandwidth (D-DIL) environments.

### Key Features

#### TYCHON SENSOR

Lightweight agent built on a micro service engine framework to optimize integrations and provide superior data quality to fulfill use cases.

#### MESH MODEL

Instantly query up to a million endpoints. Unique architecture components built for scalability and fast response.

#### **OPEN ARCHITECTURE**

Built on an open, flexible framework with embedded micro services built using a Client-Server Model with an integrated journal.

#### INCIDENT RESPONSE

Instantly respond to threats by executing a cleanup, AV update, and services status check across endpoints in a matter of seconds.

#### TYCHON JOURNAL

Fully indexed record from every endpoint. Monitor and record endpoint and server activity for near-instant identification of threats.

#### DYNAMIC DASHBOARDS

Interactive dashboards, which display real-time enterprise compliance metrics for up-to-date situational awareness of network risk.

#### END USER ENGAGEMENT

A direct line of communication from the incident responder to the desktop of end users.

Comprehensive & Customizable Endpoint Datasets to make better decisions.
